

## Derma Piercing Aftercare

You will need an antibacterial or antimicrobial soap, no fragrance.

Morning: Wash hands. Put a drop of soap in the palm of clean hand. Wet the end of a qtip transfer a little water to soap and work into a lather. Apply soap around piercing for manufacture specific suggested time. Wet the other end of the qtip and use it to rinse off soap. You can splash rinse, but be careful. Always ensure the piercing is rinsed off thoroughly.

Evening: Wash hands. Put a drop of soap in the palm of clean hand. Wet the end of a qtip transfer a little water to soap and work into a lather. Apply soap around piercing for manufacture specific suggested time. Wet the other end of the qtip and use it to rinse off soap. You can splash rinse, but be careful.

Always ensure the piercing is rinsed off thoroughly.

You'll want to keep up your aftercare regimen for 6 - 8 weeks. I would say 8 weeks preferably. No top changes until 8 weeks.

If you have any questions, concerns or issues. Please, contact your piercer.
